COLONEL
TERRENCE B. SHERIDAN
SUPERINTENDENT

June 30, 2009

The Honorable Martin O'Malley
Governor
State House
Annapolis MD 21401

Dear Governor O'Malley:

In accordance with Public Safety Article, Section 2, Subsection 307 and 308, of the Annotated Code of Maryland, the Maryland Department of State Police is pleased to submit, the 2008 Uniform Crime Report, Crime in Maryland. This publication represents the 34th annual Crime in Maryland report.

The 2008 Crime in Maryland publication provides valuable information to law enforcement personnel, policy makers and interested parties to include those in academic, civic and research organizations. The statistics presented in this release are an indication of crime and criminal activities known to, and reported by, law enforcement agencies for 2008. The information presented focuses on the incidence of crime and provides an indicator over time of variations in crime trends.

Maryland law enforcement agencies contribute crime data to the Maryland Uniform Crime Reporting Program. Statistics pertaining to crime trends could not have been compiled without the dedication and cooperation of all police agencies, sheriff's offices and specialized law enforcement agencies throughout the State of Maryland. Contributions by Maryland law enforcement agencies to the Uniform Crime Reporting Program provide the Maryland Department of State Police the opportunity to develop and present a comprehensive picture of crime in Maryland.

Sincerely,

Terrence B. Sheridan
Superintendent

Executive Summary

An annual release since 1975, Crime in Maryland reports crime statistics provided by Maryland Law Enforcement agencies to the State's Uniform Crime Reporting (UCR) Program. Crime in Maryland details crime incidents, clearance rates, arrests, law enforcement officers killed and assaulted, and law enforcement employee data. Statewide, county, municipality, and reporting agency perspectives are presented within the report. The statewide UCR Program was developed to report crime in Maryland to the National UCR Program administered by the Department of Justice, Federal Bureau of Investigation. The Maryland program has evolved to collect and report data on domestic violence, hate bias and carjacking incidents and arrests. Reports and statistics pertaining to hate bias and carjacking incidents and their associated arrests are released in separate publications to facilitate detailed reporting.

The Uniform Crime Reporting Program collects information on crimes that were selected as an index to represent crime in the United States. These index crimes are murder, rape, robbery, aggravated assault, breaking or entering, larceny-theft and motor vehicle theft. Although not an index crime, data pertaining to the crime of arson is also collected, analyzed and reported through this report.

Crime in Maryland increased two percent in 2008, when compared to 2007. There were 233,566 total crime incidents reported in 2008 compared to 228,860 in 2007. Violent crime decreased two percent. The violent crime group consists of murder, rape, robbery and aggravated assault. Property crime increased three percent during the same period. The composition of the property crime group is breaking or entering, larceny-theft and motor vehicle theft. The 2008 percent increase or decrease of the index crime breakdown is as follows:

Murder	- 11.0%	Breaking or Entering	4.7%
Rape	- 4.4%	Larceny-Theft	5.2%
Robbery	- .4%	Motor Vehicle Theft	- 10.8%
Aggravated Assault	- 2.4%	Arson	2.3%

Arrests in Maryland increased two percent in 2008, when compared to 2007. There were 303,270 arrests reported in 2008 compared to 298,320 in 2007. Of the total arrests, 255,240 or 84 percent were adults. This is an increase of two percent over 2007. Juvenile arrests accounted for 48,030 or 16 percent of arrests in 2008. This is a one percent decrease over 2007. Arrests for drug offenses totaled 57,680 in 2008. This is a four percent increase over similar arrests reported in 2007. In 2008, 23,992 persons were arrested for driving while intoxicated. This is a decrease of one percent over similar arrests reported in 2007.

Four Maryland law enforcement officers died in the line of duty during 2008. There were 4,013 Maryland law enforcement officers assaulted in 2008. This represents a decrease of less than one percent over similar assaults reported in 2007 and equates to 26 percent of full time law enforcement officers employed in Maryland.

In 2008, there was a one percent increase in the number of full-time law enforcement officers in Maryland. There were 15,619 full-time law enforcement officers in 2008 compared to 15,465 in 2007. In 2008, there were 2.8 full-time law enforcement officers per 1,000 population.

INTRODUCTION

BACKGROUND

The Maryland Uniform Crime Reporting (UCR) Program is one measure that has been taken in the establishment of an effective Criminal Justice Information System (CJIS) for the State. This particular phase focuses on the incidence of crime and law enforcement. It establishes a method to collect, evaluate and process uniform statistical data on crime statewide. The Maryland UCR Program provides the means to forward valid data to the Federal Bureau of Investigation from a single agency and also to consolidate it into an annual report entitled Crime in Maryland.

NATIONAL UNIFORM CRIME REPORTING PROGRAM

The counterpart of the Maryland UCR Program is the National UCR Program which is under the direction of the Federal Bureau of Investigation. The National Program resulted from a need for a uniform compilation of crime statistics nationwide. Uniform Crime Reports were first collected in 1930 after being developed by a committee of the International Association of Chiefs' of Police. The IACP continues to serve in an advisory capacity to the FBI in the current operation of the program.

Crime statistics voluntarily submitted by individual law enforcement agencies from all 50 states are presented annually in the FBI's publication entitled Crime in the United States.

MARYLAND UNIFORM CRIME REPORTING PROGRAM

The FBI has actively assisted individual states in the development of State UCR Programs compatible with the National Program. Maryland took advantage of this assistance in 1972 and was able to develop its own program by 1975.

The Maryland Uniform Crime Reporting Program became operational January 1, 1975. This program consists of the uniform classification, review, compilation and analysis of crime statistics reported by all law enforcement agencies of the State pursuant to the guidelines and regulations prescribed by law.

The responsibility and authority for the collection and dissemination of UCR data is assigned to the Department of State Police in accordance with Public Safety Article, Section 2, Subsection 307 and 308, of the Annotated Code of Maryland.

PURPOSE AND OBJECTIVES

In keeping with the recommendation of the President's Commission on Law Enforcement and the Administration of Justice, the Maryland UCR Program was planned for eventual growth into a complete and integrated offender based Criminal Justice Information System. Under this program, each offender arrested in Maryland is tracked through the entire criminal justice system from time of arrest, through the courts, to the correctional system where their exit (parole, expiration of sentence, etc.) will be recorded. In this manner, a complete "criminal history" on individual offenders will be available for use by the police, courts and correctional agencies in Maryland. In addition, statistical data derived from the CJIS Program will provide assistance in determining the overall efficiency of the Criminal Justice System in Maryland and will make effective management studies possible.

The fundamental objectives of the Maryland UCR Program are:

1. Inform the Governor, legislature, other governmental officials and the public as to the nature, magnitude and trends of the crime problem in Maryland.
2. Provide law enforcement administrators with criminal statistics for administrative and operational use.
3. Determine who commits crimes by age, sex, race and other attributes in order to find the proper focus for crime prevention and enforcement.
4. Provide base data and statistics to measure the workload and effectiveness of Maryland's Criminal Justice System.
5. Provide base data and statistics to measure the effects of prevention and deterrence programs.
6. Provide base data and statistics for research to improve the efficiency, effectiveness and performance of criminal justice agencies.
7. Provide base data to assist in the assessment of social and other causes of crime for the development of theories of criminal behavior.
8. Provide the FBI with complete UCR data to be included in the national crime reports.

REPORTING PROCEDURES

Under the Maryland UCR Program, law enforcement agencies submit specified Uniform Crime Reports. The necessary information for each of the required reports is gathered from each agency's record of complaints, investigations and arrests.

Crime data and information is submitted monthly by state, county and municipal law enforcement agencies on the number of offenses known to them in the following crime categories:

- (1) Criminal Homicide
- (2) Forcible Rape
- (3) Robbery
- (4) Assault
- (5) Breaking or Entering
- (6) Larceny-theft
- (7) Motor Vehicle Theft
- (8) Arson*

The count of offenses is taken from the record of complaints received by law enforcement agencies. This information comes from victims, witnesses, other sources or discovered by law enforcement during their own operation. Complaints determined by subsequent investigation to be unfounded are eliminated from the count. The resulting number of "actual offenses known to law enforcement agencies" in these crime categories are reported without regard for whether anyone is arrested, stolen property is recovered, local prosecution policies or any other consideration.

Reported offenses are recorded by the municipality and county in which they occur. Municipal law enforcement agencies report those crimes which occur within the cities and state. County agencies report those crimes which occur in the counties outside the cities.

A supplemental report is also submitted each month showing the value of stolen and recovered property, the type of property and the type of offense within a crime category in which it was taken. This report also shows the number of stolen vehicles recovered locally and by other jurisdictions. In addition, each agency reports the number of persons arrested by them or other agencies for crimes which have occurred within their jurisdiction. The arrest report also shows the age, sex and race of those arrested and the disposition of juveniles by the arresting agency. When applicable, supplemental reports are submitted regarding the persons, weapons and circumstances, etc., involved in homicides, domestic violence incidents, officer assaults and "carjackings." In addition, police employee data is collected on an annual basis.

*Monthly arson reports are submitted for law enforcement agencies by the State Fire Marshal's Office and designated county agencies.

REVIEW PROCESS

A major concern in the collection of crime statistics for law enforcement agencies throughout the state is the uniformity and accuracy of data received. Program aides, such as guides and instructional classes, do not necessarily guarantee the accuracy of the reports submitted by the contributor's, therefore, additional controls are necessary.

Each report received by the UCR section is recorded, examined and reviewed for mathematical accuracy and possibly, more importantly, for reasonableness. The review process includes numerous checks to ensure the validity of information. The elimination of duplicate reporting by individual contributors receives particular attention. Minor errors are corrected by telephone contact with the contributors. Substantial variations and errors are adjusted through personal contacts. The personal contacts are invaluable to the accuracy and quality of reporting. Field Records Representatives are engaged in a constant educational effort, and as such, provide a vital link between the UCR Program and the contributor.

POPULATION DATA

The computation of crime rates, as they appear in this report by municipality, county and state are based on the latest available population estimates for the year. These population estimates are provided by the Federal Bureau of Investigation through the cooperation and assistance of the United States Bureau of Census.

LIMITATIONS OF A UNIFORM CRIME REPORTING PROGRAM

Information currently collected by the Maryland Program is generally the same as that gathered by the National System, and the methods of classifying and scoring offenses and arrests are the same. This readily enables comparisons with other states and with the nation, as a whole. However, there are limitations to the information collected which should be clearly understood before any conclusions are drawn from the UCR data presented in this report.

The main goal of the UCR Program is to furnish police administrators with a measure of their activities and operational problems as indicated by the number of reported offenses, arrests, clearances, etc.

A first step in the control of crime is to ascertain the true dimensions of the problem. However, present statistics, as gathered by the UCR Program, measure neither the real incidence of

crime or the full amount of economic loss to victims. Information regarding number of offenses, clearances, value and type of property stolen and recovered property are collected only for the eight Part I offenses. For Part II offenses, the only information submitted is the number of arrests for these crimes. Consequently, there is no record of the actual number of these offenses occurring, or is there a calculation made for property loss.

The Crime Index does not explicitly take into account the varying degrees of seriousness of its seven components (excluding arson). Each crime receives the same weight as it is added to the index; consequently, an auto theft is counted the same as a murder and an aggravated assault is weighed equally with an attempted breaking or entering. Any review of crime must consider the volume, rate and trend of each offense that comprises the index and the relationship between these seven crimes*.

The Maryland and National Uniform Crime Reporting Programs are designed to measure offenses committed and persons arrested. Difficulties can arise if this distinction is not kept clearly in mind. Crimes relate to events, arrests relate to persons. Unlike traffic violations where there is usually one event, violation and offender, a single criminal act can involve several crimes, offenders and victims. Relating specific crimes to a criminal or offense to evaluate characteristics of those arrested is generally beyond the scope of the present Uniform Crime reporting System.

Juvenile crime and arrest statistics, because of their nature, are another area of misunderstanding. Many juvenile offenders are handled informally. As a consequence, inaccurate or incomplete recording of the event or action may result. Procedures for handling juveniles vary between departments more so than the handling of adult offenders. Furthermore, the degree of juvenile involvement in cleared offenses is probably seriously misunderstood because the juvenile clearance indicator is recorded only when juveniles are exclusively involved. When both adults and juveniles are subjects in a clearance, the juvenile participation is not reported.

The preceding comments should not be viewed as an indictment of the Uniform Crime Reporting Program which, admittedly, is designed for the operational requirements of law enforcement agencies. While the current method of gathering and reporting crime and arrest data provide a less than complete picture of criminality in our society, the FBI has designed the National Incident Based Reporting System to address these limitations.

*Arson is not used at this time in computing the Crime Index.

CRIME FACTORS

Statistics compiled under the Uniform Crime Reporting Program from data submitted by Maryland law enforcement agencies projects a statewide view of crime. Awareness of the presence of certain crime factors, which may influence the resulting volume and type of statistics presented, is necessary if fair and equitable conclusions are to be drawn. These crime influencing factors are present to some degree in every community. Their presence affects in varying degrees the crime experience of that community. Attempts at comparison of crime figures between communities should not be made without first considering the individual factors present in each community.

Crime, as an outgrowth of society, remains a social problem of grave concern. The police are limited in their role to its suppression and detection. As stated by the President's Commission on Law Enforcement and Administration of Criminal Justice in their report "The Challenge of Crime in a Free Society" (1967 - Page 92):

"But the fact that the police deal daily with crime does not mean that they have unlimited power to prevent it, or reduce it, or deter it. The police did not create and cannot resolve the social conditions that stimulate crime. They did not start and cannot stop the convulsive social changes that are taking place in America. They do not enact the laws that they are required to enforce, nor do they dispose of the criminals they arrest. The police are only one part of the criminal justice system; the criminal justice system is only one part of the government; and the government is only one part of society. In so far as crime is a social phenomenon, crime prevention is the responsibility of every part of society. The criminal process is limited to case by case operations, one criminal or one crime at a time."

Listed below are some of the conditions which affect the type and volume of crime that occurs from place to place:

Density and size of the community population and the metropolitan area of which it is a part.

Composition of the population with particular reference to age, sex and race.

Economic status of the population.

Relative stability of the population including number and ratio of seasonal visitors, residents, commuters and other transients.

Climate and seasonal weather conditions.

Educational, recreational and religious characteristics.

Standards governing appointments to the police force.

Policies of the prosecuting officials and the courts.

Attitude of the public toward law enforcement problems.

The administrative and investigative efficiency of the local law enforcement agency, including the degree of adherence to crime reporting standards.

Organization and cooperation of adjoining and overlapping police jurisdictions.

CRIME INDEX OFFENSES

The crime counts listed in this publication are actual offenses established by police investigation. When police receive a complaint of a crime and the follow-up investigation discloses no crime occurred, it is "unfounded." In 2008, police investigations that were "unfounded" represented three percent of the complaints concerning index offenses. When comparing individual index offenses to the number reported, "unfounded" offenses ranged from one percent in the aggravated assault category to 23 percent in the rape category, the same as in 2007.

A total of 233,566 actual Index Offenses were reported to law enforcement agencies in Maryland during the calendar year 2008. This represents an increase of two percent when compared to the 2007 total of 228,860 Crime Index Offenses.

An analysis of Index Offenses by month in 2008 shows that July had the highest frequency of occurrence, and February had the lowest, the same in 2007.

The Crime Index Offenses represent the most common problem to law enforcement. They are serious crimes by their nature, volume, or frequency of occurrence. They are categorized as Violent Crimes, which includes Murder, Forcible Rape, Robbery and Aggravated Assault, or as Property Crimes, which includes Breaking or Entering, Larceny-Theft and Motor Vehicle Theft.

VIOLENT CRIME

Violent Crimes involve the element of personal confrontation between the perpetrator and the victim; consequently, they are considered more serious than Property Crimes because of their very nature. These offenses accounted for 15 percent of the total Crime Index for 2008. In 2007, Violent Crimes made up 16 percent of the Crime Index Total. Violent Crime decreased two percent when compared to 2007.

PROPERTY CRIME

The number of Property Crimes reported during 2008 was more than five times greater than the number of Violent Crimes reported. As a group, Property crimes made up 85 percent of the total Crime Index in 2008. In 2007, Property Crimes made up 84 percent of the Crime Index Total. Property Crime increased three percent when compared to 2007.

RATES

Crime Rates relate the incidence of crime to the resident population. Many other factors, which may contribute to the volume and type of crime in a given jurisdiction, are not incorporated here, but are shown in the section entitled, "Crime Factors."

In 2008, the Crime Rate for Maryland was 4,145.9 victims for every 100,000 population. This represents a two percent increase in the crime rate when compared to the 2007 rate of 4,073.4.

The 2008 Crime Rate for the Violent Crime group was 628.3 victims per 100,000 inhabitants, a two percent decrease compared with the 2007 rate of 641.9. The Property Crime group had a rate of 3,517.7 victims, a three percent increase when compared to the 2007 rate of 3,431.5.

CLEARANCES

For Uniform Crime Reporting purposes, a crime is cleared when police have identified the offender, have evidence to charge him and actually take him into custody. Solutions of crimes are also recorded in exceptional instances where some element beyond police control precludes formal charges against the offender, such as the victim's refusal to prosecute or local prosecution is declined because the subject is being prosecuted elsewhere for a crime committed in another jurisdiction. The arrest of one person can clear several crimes or several persons may be arrested in the process of solving one crime.

Maryland Law Enforcement Agencies cleared 24 percent of all Index Offenses reported to them in both 2008 and 2007.

Violent Crimes recorded a 53 percent clearance rate in 2008, the same as in 2007. The Property Crime group experienced an 18 percent clearance rate in 2008, also the same as in 2007.

Considered individually, the 2008 Violent Crime clearance rate was determined to be 58 percent of the Murders, 57 percent of the Rapes, 31 percent of the Robberies and 66 percent of the Aggravated Assaults. The Property Crime clearance rates were 15 percent for Breaking or Entering, 21 percent for Larceny-Theft and 12 percent for Motor Vehicle Theft.

The relatively high clearance rate for Violent Crimes as compared to Non-Violent Property Crimes is in part attributable to the volume difference between the two. Property Crime volume is much greater than that of Violent Crime, and police investigation of Violent Crime is usually more intense.

JUVENILE CLEARANCES

A Juvenile clearance is the clearance of an offense in which all of the offenders involved were under the age of 18. If one of the offenders was over 17 years of age, the clearance of that offense is not considered a juvenile clearance. In 2008, such juvenile clearances represented 20 percent of all clearances, the same as in 2007.

Juvenile clearances in the Violent Crime category represented 14 percent of the total cleared in 2008, the same as in 2007. The clearances in Violent Crimes are: Homicide five percent, Rape seven percent, Robbery 24 percent and Aggravated Assault 12 percent.

In the Property Crime category, clearances involving Juvenile offenders represented 23 percent of the total cases cleared in 2008, compared to 24 percent in 2007. The clearances in Property crimes are: Burglary 19 percent, Larceny-Theft 23 percent and Motor Vehicle Theft 26 percent.

STOLEN PROPERTY VALUES

The total value of Property Stolen during 2008 was \$339,773,601, which represents a two percent decrease from 2007. Recovered Property amounted to \$127,590,643, which is 38 percent of the total stolen, resulting in a \$212,182,958 property loss to victims in the State of Maryland during 2008. This property loss represents a decrease of four percent when compared to the property loss in 2007.

MURDER

MURDER

Murder and non-negligent manslaughter is the willful (non-negligent) killing of one human being by another.

VOLUME AND RATE

During 2008, a total of 493 murders were reported. This represents an 11 percent decrease over 2007. Murder accounted for one percent of all violent crime and less than one percent of the crime index. In 2008, there were 8.8 murders per 100,000 of population.

ANALYSIS OF MURDER

In 2008, 285 murders were cleared with five percent of these clearances involving only juvenile offenders. A total of 309 persons were arrested for murder during 2008. A breakdown of persons arrested for murder was 89 percent male, 11 percent female, ten percent juvenile, 72 percent Black, 28 percent White and less than one percent consisting of American Indian and Asian.

During 2008, 246 of the murder victims were in the 18 to 29 age group, representing 50 percent of the total. There were 50 juvenile victims of murder, accounting for ten percent of the total murder victims.

Handguns were used in 67 percent of the reported murders in 2008. This represents a 16 percent decrease in their use when compared to the handgun use in 2007. The next most used weapon was a knife, accounting for 12 percent of the reported murders in 2008. This represents a three percent increase when compared to 2007.

Drug related murders accounted for two percent of the total in both 2008 and 2007.

Family members, as offenders in murder, accounted for 12 percent while boyfriend or girlfriend (those not cohabitating) reflects two percent of the total reported. There was a nine percent increase in family-related murders, while boyfriend or girlfriend murders remained the same from 2007. Additionally,

an acquaintance is listed in 13 percent of the murders reported in 2008. Strangers and unknown relationships accounted for two other large categories, 20 percent and 73 percent respectively.

In 45 percent of the murders, the offenders are unknown and not described. When the race of the victim and offender is known, the offender is most often someone of the same race.

RAPE

RAPE

Forcible rape is defined as the carnal knowledge of a female forcibly and against her will.

VOLUME AND RATE

During 2008, 1,127 actual forcible rapes were reported. This represents a four percent decrease over 2007. Rape accounted for three percent of the violent crime and less than one percent of the crime index. In 2008, there were 20.0 rapes per 100,000 of population.

ANALYSIS OF RAPE

Rape by force accounted for 87 percent of all forcible rapes and 13 percent were attempt to rape.

In 2008, 645 forcible rapes were cleared with seven percent of these clearances involving only juvenile offenders.

A total of 412 persons were arrested for forcible rape during 2008. A breakdown of persons arrested for forcible rape was, 13 percent juvenile, 51 percent Black and 49 percent White and less than one percent consisting of American Indian and Asian.

ARSON

ARSON

Arson is any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc.

VOLUME AND RATE

During 2008, there were 2,279 arsons reported. This represents a two percent increase over 2007. In 2008, there were 40.5 arsons per 100,000 of population.

Structures accounted for 36 percent, mobile accounted for 37 percent of the total number of arsons, while other property accounted for 27 percent. Residential comprised 53 percent of the structures at which arson was directed, with 12 percent of all targeted structural property being uninhabited. The estimated value of property damage was approximately 28 million dollars.

In 2008, 394 arsons were cleared, with 56 percent of these clearances involving only juvenile offenders.

A total of 573 persons were arrested for arson during 2008. A breakdown of persons arrested for arson was 83 percent male, 17 percent female, 58 percent juvenile, 39 percent Black, 61 percent White and less than one percent consisting of American Indian and Asian.

DOMESTIC VIOLENCE

DOMESTIC VIOLENCE

The Domestic Violence Act of 1994 mandated that all law enforcement agencies in Maryland submit copies of their police reports of incidences involving domestic violence to the Maryland State Police. Through the Maryland Uniform Crime Reporting Program, a revised Battered Spouse data collection form was created. This new form allowed for the collection of more data, which is based upon a revised definition of a domestic violence incident under the guidelines of the Maryland Uniform Crime Reporting Program.

Under the Maryland Uniform Crime Reporting Program the definition for a domestic violence incident is considered **"An individual who has received deliberate physical injury or is in fear of imminent deliberate physical injury from a current or former spouse or a current or former cohabitant. This includes a homosexual relationship."** In addition, a domestic violence incident in the Maryland Uniform Crime Reporting Program is considered to be any crime against:

- *A married person living with their spouse.*
- *A married person estranged from their spouse.*
- *A male and female in an intimate relationship who are not married to each other and who are cohabiting or had cohabited.*
- *Individuals of the same sex in an intimate relationship who are cohabiting or had cohabited.*

It should be noted that prior to 1996, the statistical information collected was only on assaults to a domestic partner and did not include individuals of the same sex in an intimate relationship who are cohabiting or had cohabited. The following information gives a more comprehensive report that includes statistics based on the revised definition of domestic violence, including all crimes.

DOMESTIC VIOLENCE CRIMES

There are limitations to the information collected which should be clearly understood before any conclusions are drawn from the data presented in this report. Procedures for handling domestic violence crimes vary between law enforcement agencies and counties of occurrence.

The current method of collecting domestic violence information for this report provides less than a complete picture. There is at present no other statewide informational system in general use gathering these statistics from law enforcement agencies that will more accurately perform this task.

There were a total of 18,926 domestic violence crimes reported in 2008, as compared to 19,391 crimes in 2007, resulting in a 2 percent decrease. The breakdown is as follows:

Crime	2004	2005	2006	2007	2008

TOTAL	23,013	22,092	21,965	19,391	18,926

ASSAULTS

Assault is the most frequent domestic incident reported. During 2008, there were 17,634 domestic assaults, representing a two percent decrease over 2007 domestic violence assaults. There were 4,144 domestic assaults reported as aggravated. Aggravated assaults were 24 percent of the total reported domestic assaults in 2008.

Analysis

In 2008, 49 percent of all domestic violent crimes occurred between the hours of 6:00 P.M. to 1:00 A.M., inclusive. Thirty-six percent of domestic violent crimes occurred during Saturday and Sunday. When combining these two categories, this would indicate that an intensive period for domestic violent crimes occurs between 6:00 P.M. and 1:00 A.M. on Saturday and Sunday.

TOTAL	23,013	22,092	21,965	19,391	18,926

CLEARANCES

There are two ways of clearing a case. One is by making an arrest and charging the person (s) with the offense. The second is known as an exceptional clearance. Exceptional clearance means the police know the identity and location of the person (s) who committed the offense and have enough information to arrest them. However, there is some reason beyond their control that prevents them from making the arrest.

The arrest and exceptional clearances reported reflect the disposition at the time the domestic violence report form was forwarded to the Uniform Crime Reporting Program. These reports are not updated; therefore, other arrests and exceptional clearances may occur, but would not be reflected in the following totals.

	2004	2005	2006	2007	2008
Arrest	10,141	9,506	8,903	8,424	8,912
Exceptional	7,710	7,411	8,225	6,613	5,849
Unknown	5,162	5,175	4,837	4,354	4,165
TOTAL	23,013	22,092	21,965	19,391	18,926

During 2008, 78 percent of all domestic violence cases were cleared. A breakdown of the clearances in 2008, were 47 percent by arrest, 31 percent by exceptional and 22 percent unknown, compared to 43 percent by arrest, 34 percent by exceptional and 22 percent unknown in 2007.

INDEX OFFENSE DATA

The tables contained within this section were designed to provide quick reference to statistical crime information relative to the different reporting areas of the State of Maryland.

The tables are broken down by Region. Within each Region information is listed in County name sequence and is further detailed to show the activity experienced by individual police agencies. The general identifying descriptions which indicate the reporting areas are listed and defined as follows:

- Regional Total - This line indicates the total activity of all the Counties within the indicated Region.
- County Total - This line indicates the total activity of all reporting Agencies within the indicated County.
- Sheriff - This line indicates the total activity reported by Sheriff's Offices. This includes activity which may have occurred within the corporate limits of towns in that County.
- County Police Department - This line indicates the total activity reported by County Police Departments. This includes activity which may have occurred in the corporate limits of towns in that County.
- State Police - This line indicates the total activity reported by all State Police installations within the indicated reported area. This includes activity which may have occurred within the corporate limits of towns in that County.
- Municipal Police Departments - This line indicates the total activity reported by the specified police departments and includes only those crimes which were handled by that department.

There are five regions used in the Maryland Uniform Crime Reporting Program which are listed below.

Region I - Eastern Shore

Caroline County
Cecil County
Dorchester County
Kent County
Queen Anne's County
Somerset County
Talbot County
Wicomico County
Worcester County

Region II - Southern Maryland

Calvert County
Charles County
St. Mary's County

Region III - Western Maryland

Allegany County
Carroll County
Frederick County
Garrett County
Washington County

Region IV - Washington Metropolitan

Montgomery County
Prince George's County

Region V - Baltimore Metropolitan

Anne Arundel County
Baltimore City
Baltimore County
Harford County
Howard County

Crime Rates for the individual agencies are not calculated in the following table because of overlapping jurisdictions in many cities of municipal, county and state law enforcement agencies. This table contains the offenses as reported by the individual agencies with crime rates for the county and region totals.

MUNICIPALITY

MUNICIPALITY CRIME RATES

Crime rates for individual cities and towns are listed in the following table. The rates for many cities are based on combined data reported by municipal, county and state law enforcement agencies due to overlapping jurisdiction. For the purpose of this report, data for cities lying in several counties has been shown in only one county.

		CRIME RATE	TOTAL OFFENSES	MURDER	RAPE	ROBBERY	AGGRAVATED ASSAULT	BREAKING OR ENTERING	LARCENY THEFT	M/V THEFT
REGION I										
CAROLINE COUNTY

ARREST DATA

ARREST DATA

The Maryland Uniform Crime Reporting Program requires the submission of monthly reports of persons arrested in the State. A record of arrest activity for both Part I and Part II crimes are received from state, county and municipal law enforcement agencies showing the age, sex and race of persons arrested. Traffic arrests, except Driving While Intoxicated, are not reported. A total of 303,270 arrests for Part I and Part II criminal offenses were reported during 2008. In 2007, there were 298,320 arrests, which represents a two percent increase. Based on 2008 population estimates, there were 5,383.2 arrests per 100,000 of population in Maryland. The arrest rate for 2007 was 5,309.7, representing a one percent arrest rate increase.

A person is counted on the monthly arrest report each time they are arrested. This means that a person may be arrested several times during a given month and would be counted each time. However, a person is counted only once each time regardless of the number of crimes or charges involved. A juvenile is counted as "arrested" when the circumstances are such that, if the juvenile was an adult, an arrest would have been counted or when police or other official action is taken beyond a mere interview, warning or admonishment.

Arrest figures do not indicate the number of individuals arrested or summoned since, as stated above, one person may be arrested several times during the month. However, arrest information is useful in measuring the extent of law enforcement activities in a given geographic area, as well as providing an index for measuring the involvement in criminal acts by the age, sex and race of perpetrators.

During 2008, 17 percent of all reported arrests were for Crime Index Offenses compared to 16 percent in 2007. Analysis of Crime Index Arrest Data indicates that larceny-theft comprised the highest percentage of all arrests for Crime Index Offenses, with 53 percent of the total in 2008, up from 51 percent in 2007. The drug abuse, other assaults, driving under the influence and disorderly conduct categories recorded the highest percentage of arrests for Part II offenses. These offenses accounted for 47 percent of the total arrests for Part II offenses in 2008.

5 YEAR TREND

	5 YEAR AVERAGE	2008	2007	2006	2005	2004
Juvenile	49,899	48,030	48,359	50,560	50,314	52,231
Adult	255,125	255,240	249,961	255,115	257,761	257,546
TOTAL	305,023	303,270	298,320	305,675	308,075	309,777

VIOLENT CRIME ARRESTS

Violent Crime arrests represented 26 percent of all arrests for Crime Index Offenses and four percent of the total arrests. In 2007, Violent Crime arrests represented 27 percent of Crime Index Offenses and four percent of the total arrests.

A further evaluation indicates that arrests for robbery and aggravated assault represented the highest percentage of the total arrests for violent crimes with 34 and 60 percent, respectively.

PROPERTY CRIME ARRESTS

Property Crime arrests represented 74 percent of all arrests for Crime Index Offenses and 12 percent of the total arrests. In 2007, Property Crime arrests represented 73 percent of all arrests for Crime Index Offenses and 12 percent of the total arrests.

The highest percentage of property crime arrests, 72 percent, continues to occur in the larceny-theft category.

GAMBLING ARRESTS

A total of 283 gambling arrests were reported during 2008. In 2007, 454 persons were arrested for Gambling violations resulting in a 38 percent decrease.

Arrests for Gambling offenses amounted to less than one percent of all reported Part I and Part II arrests in 2008. Persons under the age of 18 made up 15 percent of all Gambling arrests in 2008, compared to 20 percent in 2007.

DRUG ABUSE VIOLATION ARRESTS

Information pertaining to drug abuse violation arrests is collected according to specific drug categories and whether the arrest was for sale or manufacture or possession of a specific drug. During 2008, a total of 57,680 arrests for drug abuse law violations were reported, compared to 55,408 drug abuse law violation arrests in 2007, resulting in a four percent increase.

Evaluation of the reported data discloses that 36 percent of all persons arrested for drug abuse violations were under 21 years of age, and 13 percent were under 18 years of age in 2008, compared to 31 and 14 percent respectively in 2007.

Analysis of individual categories showed that the highest percentage of arrests, which involved opium or cocaine and derivatives, was 49 percent in 2008 and 52 percent in 2007. Drug abuse arrests for marijuana increased to 47 percent in 2008 from 45 percent in 2007. Of the total drug abuse arrests, 77 percent were for possession, while 23 percent were for sale or manufacture in 2008. In 2007, 76 percent of the total drug arrests were for possession, while 24 percent were for sale or manufacturing.

Possession of marijuana increased to 42 percent of the total drug abuse arrests in 2008, from 40 percent in 2007. Possession of opium or cocaine and derivatives represented 33 percent of the total drug abuse arrests in 2008, a decrease from 35 percent in 2007. Arrests for sale or manufacture of marijuana amounted to four percent of the total drug abuse arrests in 2008. Sale or manufacture of opium or cocaine and derivatives amounted to 17 percent of the total drug abuse arrests in 2008, the same as in 2007.

To aid in the study of drug arrests a chart by county is provided.

LAW ENFORCEMENT OFFICERS KILLED

Four law enforcement officers died in the line of duty in Maryland during 2008. The following summary is based on information provided by their agency and the Federal Bureau of Investigation. The Federal Bureau of Investigation conducts in-depth investigations of these tragic incidents in which law enforcement officers have made the supreme sacrifice in the performance of their duties.

January 1, 2008

A 40 year old officer with the Maryland Transportation Authority Police was killed working a traffic detail. The 13 year veteran officer was struck by a hit and run driver.

June 27, 2008

A 10 year veteran of the Prince George's County Police Department was killed while attempting to stop a suspected stolen vehicle. During the incident, the suspects rammed the 39 year old officer's cruiser then hit the officer when he got out of the cruiser.

September 28, 2008

During an emergency medical transport, a four year veteran of the Maryland State Police died when his Medevac helicopter crashed. The 34 year old trooper was killed along with the pilot, an Emergency Medical Technician and a patient.

October 23, 2008

A 39 year old officer of the Frederick Police Department died when his cruiser crashed in a wooded area while in a high speed pursuit. The five year veteran was attempting to make a traffic stop when the suspect began fleeing.

LAW ENFORCEMENT OFFICERS ASSAULTED

The following information is based on a detailed monthly collection of data in the Uniform Crime Reporting System regarding the problem of assaults on local, county and state law enforcement officers. The large number of reported assaults on sworn officers is in part due to a prevalent attitude of disrespect for law enforcement in certain elements of our society.

A total of 4,013 law enforcement officers in Maryland were victims of assault in the line-of-duty during 2008, compared to 4,024 assaults during 2007, resulting in a less than one percent decrease.

The rate of assaults on law enforcement officers for the State was 26 assaults per every 100 sworn officers in 2008, the same as in 2007.

Physical force was used in 87 percent of all assaults on police officers.

The greatest number of assaults, 30 percent, occurred while officers were responding to disturbance calls (family disputes, man with a gun, etc.) and between the hours of 10:00 P.M. and 2:00 A.M.

A total of 3,761 assaults on law enforcement officers were cleared during 2008, amounting to a 94 percent clearance rate.

LAW ENFORCEMENT EMPLOYEE DATA

POLICE EMPLOYEE DATA

The Uniform Crime Reporting Program in Maryland incorporates the collection of pertinent data relating to the police of the State. Information regarding police employee strength is discussed in this section.

This information is submitted by county, municipal and state law enforcement agencies and compiled on an annual basis. Specific information concerning the number of law enforcement employees reflects the status as of October 31, 2008.

LAW ENFORCEMENT EMPLOYEE RATES

In 2008, the average number of full-time law enforcement employees (state, county and municipal) including civilian employees, amounted to 3.7 for each 1,000 inhabitants of the State, the same in 2007. The rate based on sworn personnel only amounted to 2.8 per 1,000 in population, also the same in 2007.

The ratio of law enforcement employees per 1,000 population in any given area or municipality is influenced by a number of factors, much the same as the crime rate. The determination of law enforcement strength for a given county or municipality is based on factors such as population density, size and character of the community, geographic location, proximity to metropolitan areas and other conditions which exist in the area generating the need for law enforcement services. Employee rates also differ among agencies since, in particular, there is a wide variation of the responsibilities and level of activity within various law enforcement agencies. The information in this section relates to reported police employee strength and should not be interpreted as recommended strength for any area.

CIVILIAN EMPLOYEES

The personnel of each law enforcement agency differ as to the demands and responsibilities placed before them. Many police officers are fully occupied with clerical tasks and are not free to perform active police duties. Some police administrators use civilians in this capacity, thus freeing the sworn personnel for actual police-related services.

As of October 31, 2008, 5,178 or 25 percent of the total number of police employees in Maryland were civilian.
